Mrs. Druse, for the murder of her husband, was hung in New York last week. It was one of the most revolting and inhuman murders ever committed in this country. After shooting her husband to death, she took an ax and cut the body into small pieces and creamated it in the stove, assisted by her 18-year-old daughter. The daughter was sent to the penitentiary for life.

Washingtonians thought it a capital joke when Frank Ward hired a band of colored musicians and marched them up in front of the White House, where they played four separate times of a serenade, "There's a New Coon in Town To-Day." This was very funny, and the next day the Senate completed the joke by promptly deciding that the new coon should remain in town a couple ot years, time enough for some of the newness to wear off .- K. ### EMPORIA EXTENSION CERTAIN.

The TIMES last Wednesday made the prediction, as our readers will remember, that if the Emporia road was extended from Butler east that it would naturally go by way of Ap pleton City or Clinton, by the former if a near and direct line was sought to connect with the main line of the Missouri Pacific, or by the latter, if the extension was made for the purpose of securing the business of this section. On Thursday morning the Mo. Pacific engineers arrived in Butler and started east, by way of Appleton City, to make a preliminary survey for the extension of the Empor:a. He stated to Capt. Hannah that his instructions were to go over this line and make as careful a cursory survey as possible with a view to beginning the permanent survey as soon as this was completed. He showed the Captain a diagram which had been marked out for him to follow as near as possible. This was to run by way of Appleton City and on east to intersect the main line from Jefferson City which is to be built the coming season. Mr. Carnes informed us that the above is correct in every particular That his information from head quarters was to the effect that the Emporia was to be extended as tast as the work could be accomplished, over the line above indicated. That Butler would be the end of a division, the central point for all the feeders of the Gould system in southern Kansas and Colorado. This would naturally make Butler the point where the company's shops and round houses would be located. and Mr. Carnes assures us that he will use his utmost endeavor to have this result brought about. Who can estimate the value to Butler of such action on the part of said road, I would bring a large number of laboring men and mechanics into our city, manufacturers would naturally follow and instead of a population of 77 to 54. Will Sedaha rise and of five thousand, as she now has it would double or thribble in a short time, and we would have a snug and prosperous little city of from ten and firmness to equal that even of to fifteen thousand inhabitants. old Hickory, in his veto of the pau- We confidently look for a permanper pension bill. If there was ever ent and lasting boom to Butler the coming season, the like of which has never before been witnessed.

### FOR BUTLER ALONE.

Butler has pursued a neutura course in the contest between Rich Hill and Foster, for the proposed Chicago, Ft. Scott & Texas railroad and we dety any one to prove the contrary. Being an active member of the working committee, we speak from personal knowledge in this matter. It is true that certain individuals in Butler who are interested financially in Foster would prefer, trom a financial standpoint, to see the road go to that town, not because they would detract from Rich Hill. but because of personal interests. For the same reason we know of a number of gentlemen in Butler who not only subscribed more liberally on condition the road would run by way of Rich Hill, but subscribed a liberal amount to that town direct. The committee that represents Butler in this matter discussed this very question at the beginning of its work and decided that Butler would look to her own interests in the matter and not take part nor parcel in the fight as between these contesting points. Rich Hill, however, if her journals voice the sentiments of her people, seems determined to compel Butler to forego this resolution in self detense. We do not believe in retaliatory methods except in extreme measures and then the provication should be great, but the quessuffering humanity bear without resisting the contumely heaped

V. B. Van Dyke shys his castor in the ring for assessor of Mt. Pleasant township. Van is an old residenter, having been a citizen of Butler ever since it could be denominated a town. He was at one time county surveyor and became weil acquainted with the lands in Bates county, besides being an excellent abstractor. Mr. Vandyke is a careful, painstaking man and would make an assessor second to none in the township. He submits his claims to the democratic party on true merit.

Latest reports are that Henry Ward Beecher, the great American Divine, is dying, his physicians do for assessor of Mt. Pleasant townnot think he can possibly survive but ship. Herbert is competent and a short time.

The State Senate has passed the State militia bill by an overwhelming majority. Will the House voice the sentiments of the people and do

is called to meet at the court house at 2 o'clock prompt, on next Saturday. The convention to send delegates to county convention meets at 1 o'clock sharp.

Henry E. Harris, son of Col. A. A. Harris, was in the city Monday evening and he and Mr Lee the engineer, met with our citizens' committee at the Palace Hotel, where railroad matters of importance to Butler and Bates county were discussed. The soliciting and right of way committees were urged to prosecute their labors more zealously. Mr. Harris impressed upon these committees the importance of prompt and efficient work in this matter and the limited time given to accomplish the work. The tollowing committees were appointed to visit Shawnee and Mingo townships to-day and endeavor to get the right of way through these townships guaranteed by the citizens: Mingo, Capt. F J Tygard, I Rue Jenkins, R G Hartwell and A L McBride; Shawnee: Capt. J W Hannah, J P Edwards, E A Bennett and John Atkison.

It our people comply with the demands made upon them there is no doubt but that Butler will secure the road, if not, and do not show a disposition to comply, the road will miss us sure.

We take pleasure in calling special attention to the official statement made by the Butler National Bank as published in another column. The statement shows over one hundred thousand dollars deposits and one hundred and forty-six thousand in loans. This showing is certainly highly satisfactory to the officers and stockholders as well as to the many patrons of the bank. It reflects good management on the part of the officers and the large deposits is undisputed evidence of the confidence the public has in the bank as a safe depository for money. The Butler National Bank is a solid and prosperous institutions, and under its present able management of Wm. E. Walton, one of the best financiers in the west it is bound to keep up its present high standard.

The announcement of Zib J. Williams, candidate for collector of Mt. Pleasant township appears in another column. Zib is a home man in every sense having been born and raised in Bates county. He is a live, energetic young man, fully competent and well qualified to perform the duties of the office tor which he asks. He is democratic to the back-bone, and it nominated and elected he will make a careful collector, and the delinquent list will be small.

### A Railroad Combination.

St. Louis, Mo., March 3.-The western railroad properties of Vanderbilt and Seligman, New York and Boston interests, are, it is said, about to be united, with St. Louis as the initial and terminal point, by and Missouri Central (consolidated), and the St. Louis, Kansas City and Colorado railroads. The fusion, while not contemplating a union of the entire Vanderbilt and Seligman systems, anticipates, however, the closer running arrangements. Plans have progressed so far, contingent only on the erection of a new bridge over the Mississippi river at this point. It is said that John D. Perry, of this city, has been offered the presidency of the new consolidation.

## Bonds Voted at Atchison.

Atchison, March 1 .- The bond proposition in this county to-day, in aid of the Leavenworth, Northern and Southern, the Chicago, Kansas and Nebraska, and the Atchison and Southwestern, carried by majorities of about 1600. In the city the majorities are about 1800.

W. H. Warnock makes his ancouncement this week as candidate qualified in every respect to perform the duties of the office, and his long term in the county clerk's office but hetter fits him for the work. He is good penman and would do the work well. Beside he is a democrat of the old school and takes none but Mt. Pleasant township convention straight goods. A report was circulated on the streets that he had resigned but this he emphatically de-

of the peculiar medicinal merits of Hood's Sarsaparilla is fully confirmed by the volumtary testimony of thousands who have tried it. Peculiar in the combination, proportion, and preparation of its ingredients, peculiar in the extreme care with which it is put up, Hood's Sarsaparilla accomplishes cures where other preparations entirely fail. Peculiar in the unequalled good name it has made at home, which is a "tower of strength abroad," peculiar in the phenomenal sales It has attained,
